

**NATIONAL RESEARCH SYMPOSIA
IN MATHEMATICAL SCIENCES
LIE THEORY AND ITS APPLICATIONS
30 NOVEMBER – 4 DECEMBER, 1998**

ABSTRACTS OF TALKS

November 1998

ABSTRACT. The National Research Symposium “Lie Theory and its Applications” was held at the Australian National University from 30 November to 4 December, 1998. The scope of the conference was the theory of Lie groups and Lie algebras in the broadest possible sense. The conference is one of a series of “Oberwolfach-style” workshops organised under the umbrella of the Centre for Mathematics and its Applications. This Research Report contains the abstracts of the talks given at the Conference.

1991 *Mathematics Subject Classification*: primary 17Bxx; secondary 22Exx.
